WHAT'S NEW

Advancement of Virginia's Fixed Date Conformity with the Internal Revenue Service

The 2008 General Assembly enacted legislation that moved Virginia's fixed date conformity with the Internal Revenue Code (IRC) from December 31, 2006, to December 31, 2007. At the time these instructions went to print, the only required adjustments for "fixed date conformity" were: (i) the special 30% and 50% bonus depreciation allowance for certain assets under the IRC, and (ii) the 5-year net operating loss (NOL) carryback allowed for net operating losses generated in taxable year 2001 or 2002. If federal legislation is enacted that results in changes to the IRC for the 2008 taxable year, taxpayers may be required to make adjustments to their Virginia returns that are not described in the instruction booklet. Supplemental instructions will be posted on our website at www.tax.virginia.gov. See pages 6 and 7 for additional information.

Biodiesel And Green Diesel Fuels Tax Credit

House Bill 139, which was enacted in 2008, creates an individual and corporate income tax credit for producers of biodiesel fuels during the first three years of production. The credit is equal to \$0.01 per gallon of biodiesel fuels produced; but the total credit for each taxpayer may not exceed \$5,000 annually. The credit is not allowed to exceed the tax liability of the taxpayer. Any unused amounts may be carried forward for the next three taxable years; and taxpayers are also allowed to transfer unused but otherwise allowable credits for use by other taxpayers on Virginia income tax returns.

New Virginia Corporate Income Tax Forms for 2008

For taxable year 2008, the Virginia corporate income tax return (Form 500) has been redesigned and several new forms have been added. The new forms are:

- **Schedule 500ADJ** - used to report additions, subtractions, provide amended return information and claim withholding by a Pass-Through Entity (PTE) reported to the corporation on Virginia Schedule VK-1.
- **Schedule 500FED** - used to report information from the federal corporate return
- **Schedule 500AC** - used to report corporate affiliations

Virginia Corporate Income Tax Form Discontinued for 2008

- **Form 500X** has been eliminated effective with taxable year 2008 and forward. Amended returns are now filed using Form 500 (complete the Amended Return Section on page 1) and Schedule 500ADJ, Section C. Do not file an amended return to report an NOL carryback. Always report an NOL carryback using Form 500NOLD.

GENERAL INFORMATION

CORPORATIONS REQUIRED TO FILE

Every corporation organized under the laws of Virginia, every foreign corporation registered with the State Corporation Commission for the privilege of doing business in Virginia, and every corporation having income from Virginia sources must (with the exceptions stated in this instruction) file a return with the **Virginia Department of Taxation, P.O. Box 1500, Richmond, Virginia 23218-1500**, on or before the fifteenth day of the fourth month (fifteenth day of the sixth month for nonprofit corporations) following the close of its taxable year.

Receivers, trustees in dissolution, trustees in bankruptcy, and assignees, operating the property or business of corporations must make returns of income for such corporations. If a receiver has full custody of and control over the business or property of a corporation, he is deemed to be operating such business or property, whether he is carrying on the business for which the corporation was organized or only in marshaling, selling, or disposing of its assets for purposes of liquidation. (Sec. 58.1-441)

Domestic International Sales Corporations (DISC) are taxable under Virginia law and must file Form 500. It is, therefore, necessary for a DISC to report its federal taxable income even though no federal tax is applied.

Foreign Sales Corporations (FSC) and any income attributable to an FSC are exempt under Virginia law; however, it may be necessary for an FSC to file an information return if it meets the provisions of Sec 58.1-441 and the regulations thereunder.

Effective January 1, 2001, any electric supplier, pipeline distribution company, gas utility, or gas supplier that is subject to federal income tax is also subject to the Virginia corporation income tax and should file a Virginia Corporation Return, Form 500.

Beginning on or after January 1, 2004, electric suppliers may be subject to a minimum tax instead of the corporate tax for any taxable year their minimum tax liability is greater than their corporate income tax liability. Schedule 500EL is used to compute the minimum tax and determine which tax applies.

Electric Cooperatives are subject to tax on all modified net income derived from nonmember sales and must file a Form 500EC even if no tax is due. Beginning on or after January 1, 2004, electric cooperatives may be subject to a minimum tax instead of the modified net income tax if their minimum tax liability is greater than their modified net income tax liability.

Electing small business corporations, not taxable as corporations under Sec. 58.1-400, are required to file Form 502, for pass-through entities.

EXEMPT CORPORATIONS

Corporations not organized for pecuniary profit, which are also exempt from income tax under Section 501(c) of the IRC, are taxed only on their unrelated business taxable income and must report that unrelated business income on Form 500; otherwise, no returns are required.

Public service corporations which pay a state franchise tax or license tax upon gross receipts, insurance companies which

pay a state license tax on gross premiums and reciprocal or inter-insurance exchanges which pay a premium tax to the state are not required to file an income tax return. Additionally, state and national banks, banking associations, trust companies and credit unions organized and conducted as banking institutions are not taxed on their income by Virginia and are not required to file an income tax return. (Sec. 58.1-401.)

PERIOD TO BE COVERED BY RETURN

A corporation's taxable year is the same as its taxable year for federal income tax purposes. If a corporation's taxable year is changed for federal income tax purposes, its taxable year also changes for state income tax purposes. (Sec. 58.1-440.)

ACCOUNTING METHODS

A corporation's method of accounting is the same as its method of accounting for federal income tax purposes. In the absence of any method of accounting for federal income tax purposes, Virginia taxable income shall be computed on the accounting basis regularly used in the corporation's bookkeeping, provided such method in the opinion of the Department of Taxation clearly reflects income. If a corporation's accounting method changes for federal income tax purposes, it also changes for state income tax purposes. (Sec. 58.1-440.)

APPORTIONMENT

Double-Weighted Sales Factor. A double-weighted sales factor is used for corporate apportionment. Under this formula, the sales factor is weighted 50% and payroll and property as 25% each in determining the overall corporate income apportionment factor. See the instructions for Schedule 500A for details on how to compute apportionable income factors.

WHERE AND WHEN TO FILE

Every corporation income tax return must be filed with the **Virginia Department of Taxation, P.O. Box 1500, Richmond, Virginia 23218-1500**, on or before the 15th day of the fourth month (15th day of the sixth month for nonprofit corporations) following the close of a corporation's taxable year. (Sec. 58.1-441.)

EXTENSION OF TIME, FORM 500CP

For taxable years beginning on and after January 1, 2005, an automatic extension of time to file is granted to the date six months after such due date or 30 days after the extended date for filing the federal income tax return, whichever is later.

If Form 500 is filed within the automatic extension period, but less than 90% of the tax liability was paid by the original due date, an extension penalty will apply. The extension penalty is imposed at the rate of 2% per month or part of a month on the balance of the tax due with the return from the original due date through the date of filing to a maximum of 12%. If an additional tax payment is needed to ensure the tax liability has been paid, use Form 500CP to remit the payment. You may also submit an EFT payment or use ifile at www.tax.virginia.gov. Electric cooperatives are required to make sufficient payments based on their estimated

modified net income tax liability. **If the return is filed after the extended due date, a 30% late filing penalty will apply on the balance of tax due with the return. The minimum penalty for failure to file timely is \$100.**

If any amount of the tax is underestimated, interest accrues at the underpayment rate set in Sec. 6621, IRS Code, plus 2%.

ELECTRONIC FUNDS TRANSFER (EFT)

Businesses with an average monthly liability exceeding \$20,000 are required by law to pay their taxes by EFT. This requirement applies separately for corporate income tax, retail sales and use tax, and withholding tax. Taxpayers that are identified as mandatory EFT filers will be notified by first class mail to begin making tax payments by EFT. Payments required to be made by EFT that are submitted by check are subject to late payment penalties. Taxpayers who do not have an average monthly tax liability of \$20,000 may voluntarily choose to pay any of these three types of taxes by EFT. For more information, obtain an EFT Guide by visiting our website at www.tax.virginia.gov or call our Forms Request Unit at **(804) 440-2541**.

COMPUTER GENERATED/PREPARED FORMS

A corporation may elect to file its Virginia Corporation Income Tax return on Department-approved computer-generated forms.

PAYMENT OF TAX

Unless payment is made through our website or by EFT, a check or money order covering the unpaid balance of the tax must be attached to the return along with Form 500V. Checks or money orders should be made payable to the Virginia Department of Taxation. (Sec. 58.1-455.) Payments returned by the bank will be subject to a returned payment fee in addition to any other penalties that may be incurred.

PENALTIES AND INTEREST

If the return is filed within the six month extension, but the corporation failed to pay 90% of the tax due by the original due date, then the corporation is subject to an extension penalty of 2% per month or fraction of a month. The penalty is applied to the balance of tax due with the return from the original due date through the date of filing. The maximum extension penalty is 12% of the tax due. If the return is filed after the extended due date, the extension provisions do not apply and the corporation is subject to the late filing penalty (Sec. 58.1-455). In no case, however, will the penalty for failure to file timely be less than \$100, and this minimum \$100 penalty applies whether or not tax is due for the period covered by the return. If Form 500 is filed within the extension period and full payment is not included with the return, the late payment penalty will be assessed at the rate of 6 percent per month from the date of filing through the date of payment, to a maximum of 30 percent of the tax due. Civil and criminal penalties may be imposed for filing a fraudulent return. Effective July 1, 2003, the criminal penalty for filing a fraudulent return changed from a Class 1 misdemeanor to a Class 6 felony. (Sec. 58.1-451 and 58.1-452.) Interest on the unpaid balance of any tax and penalty is charged at the underpayment rate established by Sec. 6621 of the IRC, plus 2%, from the due date until paid.

SIGNATURE AND VERIFICATION

The return must be signed by the president, vice-president, treasurer, assistant treasurer, chief accounting officer, or other officer duly authorized to act. If an accountant who is not a full-time officer or employee of the corporation prepared the return, or assisted in its preparation, give the name and address of the accountant. (Sec. 58.1-447.)

Schedule 500EL - Electric Suppliers Corporation Minimum Tax and Credit Schedule. Every electric supplier as defined by statute and certified by the State Corporation Commission must complete and submit Schedule 500EL.

ASSEMBLE YOUR RETURN - Place the forms and schedules, as applicable, in the order shown above. Attach Form 500V with payment to your return, unless payment is being submitted electronically. To avoid processing problems and delays, always attach all forms and schedules used to prepare the return along with any other required documentation or attachments including a copy of the Corporation's federal return.

ATTACH COPY OF THE FEDERAL RETURN: A copy of the Corporation's federal income tax return, as filed with the Internal Revenue Service, must be attached to the Virginia income tax return. Corporations included in a consolidated federal return must file a copy of the consolidated federal return. (Sec. 58.1-441.) If the federal return is so voluminous that it is impractical to file a complete copy with the Virginia return, the complete federal return must be made available to the Department upon request.

NONPROFIT HOSPITALS

Nonprofit hospitals are required to provide the Department of Taxation a copy of the hospital's federal 990 or 990-EZ

tax form (or the successor form to such form) that was filed with the Internal Revenue Service for the relevant year. A copy of the form shall be provided to the Department within 30 days following the filing of the federal 990 or 990-EZ tax form with the Internal Revenue Service. In addition, such hospital shall provide the Department a copy of any interim tax form, report, or return that the hospital filed with or provided to the Internal Revenue Service for the relevant year pursuant to Title 26 of the United States Code or the rules and regulations thereunder. The copy of the interim tax form, report, or return shall be provided to the Department within 30 days following the filing of the same with, or the providing of the same to, the Internal Revenue Service.

CONSOLIDATED OR COMBINED RETURNS

If one corporation owns 80 percent or more of the outstanding voting stock of another or others, or if 80 percent or more of the outstanding voting stock of two or more corporations is owned by the same interest, a consolidated or a combined return may be filed by those corporations that are subject to Virginia income taxes. Returns filed on a consolidated or combined basis must include a completed Schedule of Affiliated Corporations, Schedule 500AC.

If a corporation elects to file on either a separate, consolidated, or combined basis, all returns thereafter must be filed on the same basis, unless the Department of Taxation grants permission to change. (Sec. 58.1-442.) A binding election is made in the first year in which a group of affiliated corporations is eligible to file a consolidated or combined return in Virginia. *Prior elections continue in effect and can be changed only with permission granted by the Virginia Department of Taxation.*

If a group of affiliated corporations has previously elected to file separate returns or a combined return for two or more members, then permission to file a consolidated return will generally be denied unless the group: (1) files a consolidated federal return, and (2) includes corporations that are required for Virginia purposes to use different apportionment factors. Any request to switch from one filing method to another must be submitted on or before the due date for the first return to use the requested filing method.

For purposes of Sec. 58.1-442:

- (1) a consolidated return means a single return for a group of corporations affiliated within the meaning of Sec. 58.1-302, prepared in accordance with the principles of Sec. 1502 of the IRC and regulations thereunder;
- (2) a combined return means a single return for a group of corporations affiliated within the meaning of Sec. 58.1-302, in which income or loss is separately determined in accordance with the following:
 - a. Virginia taxable income or loss is computed separately for each corporation;
 - b. allocable income is allocated to the state of commercial domicile separately for each corporation;
 - c. apportionable income or loss is computed utilizing separate apportionment factors for each corporation; and
 - d. income or loss computed in accordance with a. through c. above is combined and reported on a single return for the affiliated group.

All supplementary and supporting schedules filed with a consolidated or combined return should be prepared in columnar form, one column being provided for each corporation included in the consolidated or combined return. Supporting schedules for consolidated returns should also include a column for totals of like items before adjustments are made, a column for

intercompany eliminations and adjustments, and a column for totals of like items after giving effect to the eliminations and adjustments. The items included in the columns for eliminations should be symbolized to readily identify contra items affected, and suitable explanations should be added if necessary.

Prohibition of worldwide consolidation or combination. The Virginia Department of Taxation shall not require, and no corporation may elect, that a consolidation or combination of an affiliated group include any controlled foreign corporation, the income of which is derived from sources outside the United States. (Sec. 58.1-443.)

Effective for applications filed with the Department on or after July 1, 2003, a group of affiliated corporations that has filed Virginia income tax returns on the same basis for at least the preceding 20 years will be granted permission to change the basis of the type of return filed from consolidated to separate or from separate or combined to consolidated if: (1) the tax computed under the affiliated group's requested return basis would be equal to or greater than the tax for the full taxable year immediately preceding the taxable year for which the requested return basis would be applicable; and (2) the affiliated group agrees to compute its tax liability under both the requested return basis and the elected return basis and pay the greater of the two amounts for the taxable year in which the requested return basis is effective and for the immediately succeeding taxable year.

IN-STATE CORPORATIONS

If the entire business of the corporation is transacted or conducted within Virginia, the tax is computed upon the entire Virginia taxable income of the corporation for each taxable year. The entire business of the corporation will be considered to have been transacted or conducted within this state if the corporation is not subject to a net income tax, a franchise tax measured by net income or a franchise tax for the privilege of doing business in another state. (Sec. 58.1-405.)

MULTISTATE CORPORATIONS

A corporation having income from business activity that is taxable both within and without Virginia must allocate and apportion its net income as provided in Sec. 58.1-406 through 58.1-421. Such a corporation must complete and attach to the return Schedule 500A. A corporation is not taxable in another state if that state is prohibited from imposing an income tax on the corporation because its business activity in the state does not exceed the minimum standards set forth in Public Law 86-272. (15 U.S.C.A. Sec. 381 - 384.)

REPORT OF CHANGE IN FEDERAL TAXABLE INCOME

If the amount of a corporation's federal taxable income as reported on its federal income tax return for any taxable year is changed or corrected by the IRS (or other competent authority), or is changed as the result of a renegotiation of a contract or subcontract with the United States, the taxpayer must report this change to the Virginia Department of Taxation within one year. Any taxpayer filing an amended federal return must also file an amended state return and must pay any additional tax and interest due, if applicable.

REFUND OF VIRGINIA TAX

A corporation may file an amended return to claim a refund

within the later of:

- (1) three years from the due date of the return or extended due date (whichever is later);
- (2) one year from the final determination of any change or correction in the liability of the taxpayer for any federal tax upon which the state tax is based, provided that the refund does not exceed the amount of the decrease in Virginia tax attributable to such federal change or correction;
- (3) two years from the filing of an amended Virginia return resulting in the payment of additional tax, provided that the amended return raises issues relating only to the prior amended return and the refund does not exceed the amount of the tax payment made with the prior amended return; or
- (4) two years from the payment of an assessment, provided the amended return raises issues relating only to the prior assessment and the refund does not exceed the amount of tax paid on the prior assessment.

Attach a copy of federal Forms 1120-X, 1139, the Revenue Agent's Report, Statement of Adjustment to Your Account or other form or statement showing the nature of any federal change and the date that it became final. For an Electric Cooperative subject to the modified net income tax, an amended return may be filed on Form 500EC.

NET OPERATING LOSS DEDUCTIONS

Note: With Fixed Date Conformity, Virginia Code references conform to the IRC as it existed on December 31, 2007. Thus, federal changes effective after December 31, 2007, will require modifications for Virginia purposes. For tax years 2001 and 2002, a taxpayer may carryback a net operating loss 5 years for federal purposes, however, the loss can only be carried back 2 years for Virginia purposes unless an exception was allowed under federal law. Consequently, to the extent federal and Virginia net operating loss carrybacks and carryforwards differ, separate accounting will be required. For example: If the federal loss is carried back 5 years, there will be no adjustment to Virginia returns for the 5th, 4th and 3rd carryback years. The federal loss can be carried back two years for Virginia purposes and separate tax records must be maintained to reconcile the differences. Beginning in 2003, the carryback period for net operating losses is the same for federal and Virginia (2 years). An adjustment still may be necessary depending on differences between the 5 and 2 year carrybacks for 2001 and 2002. There is no Virginia net operating loss, as such, available for carryback or carryover. However, since the starting point (Line 1, Form 500) is federal taxable income, there is statutory provision for net operating loss deductions to the extent that such losses are included in federal taxable income. Since federal income must be modified for Virginia additions and subtractions, the additions and subtractions of the loss year follow the federal loss to the year the loss is utilized. Thus, if the federal net operating loss is fully utilized in a carryback or carryover year, the net amount of additions and subtractions will be applied in the same ratio to the applicable year. The federal net operating loss deduction may be used only to reduce federal taxable income, and a federal net operating loss deduction cannot create or increase a federal operating loss.

ESTIMATED INCOME TAX

You can file and pay estimated income tax electronically. Visit www.tax.virginia.gov and click on Payment Options. If a corporation filed estimated tax last year, then personalized vouchers will be mailed to you unless you are required to pay by EFT. If by February 14, 2009, you have not received your vouchers, you may print your own vouchers using third-party software or obtain nonpersonalized vouchers by visiting www.tax.virginia.gov. To have forms mailed to you, call the **Virginia Department of Taxation, Forms Request Unit, at 804-440-2541**. It is not necessary to file Form 500ES if estimated tax payments are made by EFT.

In case of any underpayment of estimated tax by a corporation, Sec. 58.1-504 requires that an addition to tax be made at the established interest rate for underpayments — unless one of the exceptions in that section applies. Use **Form 500C** to compute this addition to the tax and/or to indicate that an exception applies.

Calendar Year Filers

Every corporation subject to Virginia income tax whose accounting period is a calendar year, is required to make a declaration of estimated tax for the calendar year if its Virginia income tax for that period can reasonably be expected to exceed \$1,000. Payment of the estimated tax must be made to the Department of Taxation as follows: 25% by April 15, 25% by June 15, 25% by September 15, and 25% by December 15.

Fiscal Year Filers

If a corporation's accounting period is a fiscal year, the corporation is required to make a declaration of estimated income tax and pay 25% of the amount due to the Department of Taxation by the fifteenth day of the 4th month following the beginning of its fiscal year. Subsequent installments will be payable by the 15th day of the 6th month, the 15th day of the 9th month, and the 15th day of the 12th month following the beginning of its fiscal year. (Sec. 58.1-500 - 58.1-504.)

VIRGINIA TAXABLE INCOME

Virginia taxable income for a taxable year means the federal taxable income for such year of a corporation (or the "investment company taxable income" of regulated investment companies, or the "real estate investment trust taxable income" of real estate investment trusts, to which shall be added in each case any amount of capital gains taxable to the corporation under federal law) or the unrelated business taxable income of organizations exempt from income tax under Sec. 501(c) of the IRC, adjusted as provided under Sec. 58.1-402; except a corporation subject to the provisions of Sec. 58.1-403.

LINE INSTRUCTIONS

Line 1 Federal Taxable Income

Enter taxable income after net operating loss deductions and special deductions for dividends as it appears on the federal income tax return filed with the Internal Revenue Service. Line 1 may not be less than zero except to report a net operating

loss in the current year. Any corporation that is included in a consolidated return for federal income tax purposes, but files separate or combined Virginia returns or files a consolidated Virginia return with fewer than all of the members included in the federal return, must include with the Virginia return, schedules and statements necessary to reconcile actual consolidated federal taxable income to the federal taxable income reported on the Virginia return.

Line 2 Total Additions from Schedule 500ADJ

Enter the total additions reported on Schedule 500ADJ, Section A.

Line 3 Total: add line 1 and line 2

If the Savings and Loan Association used the percentage of loans method or the experience method, enter the amount claimed for addition code 13 on Schedule 500ADJ. (Sec. 58.1-403.)

Line 7 Virginia Taxable Income

Virginia law does not provide for an addition or subtraction of this income, nor does the law provide for the allocation of any income other than dividends. Lines 8(c) and 8(d) on the Form 500 recognize that some taxpayers may be entitled to an alternative method of allocation and apportionment if they can demonstrate that the application of Virginia's apportionment law to their particular facts for the taxable year would be contrary to the principles set forth in *Allied Signal, Inc. v. Director, Division of Taxation*, 112 S. Ct. 2251 (1992).

In *Allied Signal, Inc.*, the Court reaffirmed the continued validity of apportionment of any income received directly by the taxpayer, including investment income such as capital gains, unless the capital transaction serves an investment function that is completely unrelated to any operational activities carried on in the state. The Court also reinforced

the principle that investment income may be included in apportionable income if there is a unitary relationship between the taxpayer and the entity in which the taxpayer has invested. However, the Court made it clear that the absence of a unitary relationship does not necessarily preclude apportionment.

These adjustments are only available to those multistate corporations that file a Virginia Schedule 500A to apportion and allocate their income, and provide clear and cogent evidence that the asset producing the income serves an investment function that is unrelated to operational functions. The denominator of the relevant apportionment factors shall also be adjusted to exclude items related to the investment assets.

Any taxpayer who qualifies for an alternative method of allocation and apportionment for this type of income is required to add back any loss included in federal taxable income that is attributable to the acquisition, ownership, management, stewardship, sale or exchange of investment assets that are unrelated to the taxpayer's operational function on line 8(d). If the taxpayer has previously claimed a subtraction for nonapportionable investment function income with respect to any investment assets, the addition is required for any subsequent losses generated by such assets.

Burden of Proof: as a prerequisite to the ability to claim an adjustment on lines 8(c) and 8(d) (which effectively allocates income other than dividends) the taxpayer must be able to demonstrate that the application of Virginia law to their particular facts will be unconstitutional. The burden is on the taxpayer to provide clear and cogent evidence that the capital investment was completely separate from its operations, and that the taxpayer's investment function was located outside of Virginia. The taxpayer must also demonstrate that the classification of the capital asset and its income for Virginia purposes is consistent with the manner in which the income has been allocated and apportioned with other state tax authorities. The taxpayer will be under a particularly heavy burden of proof in cases where the asset was clearly operational at any time. Objective evidence is required; an unsubstantiated statement as to the taxpayer's intent, purpose or state of mind will be insufficient to meet the burden.

Taxpayers claiming an adjustment for nonapportionable income on 2008 corporate tax returns must attach a statement to the return stating the nature of the adjustment and the basis for the position that relief is provided under the Constitution. Supplemental evidence should be clearly referenced and included with the return. The taxpayer should submit all evidence considered necessary to support the taxpayer's position. For additional information, see Virginia Tax Bulletin 93-4 (4/6/93).

INSTRUCTIONS FOR SCHEDULE 500ADJ

Section A - Additions to Federal Taxable Income

Line 1 Fixed Date Conformity – Depreciation.

Enter the amount that should be added to Federal Taxable Income based upon the recomputation of allowable depreciation. If depreciation was included in the computation of your Federal Taxable Income and one or more of the depreciable assets received the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2008 inclusive, then depreciation must be recomputed for Virginia purposes as if such assets did not receive the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2008 inclusive. If the total 2008 Virginia depreciation is less than 2008 federal depreciation,

then the difference must be recognized as an addition on Line 1. For further instructions, see Virginia Tax Bulletins 02-3, 03-1, 04-02, 05-1, 06-01, 07-01 and 08-01 at www.tax.virginia.gov or call (804) 367-8037.

Line 2 Fixed Date Conformity — Other.

Disposed Asset – If an asset was disposed of in 2008 and such asset received the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2008 inclusive, and a gain or loss was recognized for federal purposes, then the gain or loss must be recomputed as if such asset did not receive the special 30% or 50% bonus depreciation deduction for federal purposes in any year from 2001 through 2008 inclusive. The adjustment will be the difference in the federal and Virginia basis of the asset when sold. If the federal basis of the asset is greater than the Virginia basis, (resulting in a lower gain reported for federal purposes), then the difference between the bases is an addition on the Virginia return. For further instructions, see Virginia Tax Bulletins 02-3, 03-01, 04-02, 05-1, 06-01, 07-01 and 08-01 which are available on the Department’s website: www.tax.virginia.gov or call (804) 367-8037.

30% or 50% bonus depreciation deduction for federal purposes in any of years 2001 through 2008. The adjustment will be the difference in the federal and Virginia basis of the asset when sold. If the federal basis of the asset is lower than the Virginia basis, (resulting in a greater gain for federal purposes) then the difference between the two bases is included as a subtraction on the Virginia return. For further instructions, see Virginia Tax Bulletins 02-3, 03-01, 04-2, 05-1, 06-01, 07-01 and 08-01 which are available on the Department's website: www.tax.virginia.gov or call (804) 367-8037.

Beginning on January 1, 2008, a credit is available for Virginia biodiesel and green diesel fuel producers who produce up to two million gallons of fuel per year. This credit is only available during the first three years of production. Taxpayers may claim a nonrefundable credit against their tax liability for the production of these fuels.

Form BFC is used to apply to the Virginia Department of Taxation (TAX) for a Biodiesel Fuels Credit after the Department of Mines, Minerals and Energy has certified that you have satisfied all the

The credit may be transferred to another taxpayer. The transfer of the credit must be completed before the end of a tax year in order to use the credit for that tax year.

Fertilizer and Pesticide Application Equipment Credit

The fertilizer and pesticide application equipment credit is 25% of all expenditures for equipment certified by the Virginia Soil and Water Conservation Board as providing more precise pesticide and fertilizer application or \$3,750 whichever is less. Qualifying individuals must be engaged in agricultural production for market and have in place a nutrient management plan approved by the local Soil and Water Conservation District. For the purposes of determining "purchase price paid", the taxpayer may use the original total capitalized cost of such machinery and equipment, less capitalized interest. The credit is 10% of such expenditures and cannot exceed 40% of the taxpayer's Virginia income tax liability for the year, computed prior to computing the credit. Any amount unused this year may be carried forward for the next ten taxable years.

The Virginia Department of Environmental Quality administers the certification of all recycling machinery and equipment. The Department of Environmental Quality recycling equipment certification together with purchase receipts and invoices from the equipment purchase **MUST** be submitted with the corporate income tax return in order to receive the credit. If a taxpayer is located in an enterprise zone or in an economically distressed area (as defined by the Virginia Department of Economic Development), the threshold is reduced from 100 to 50. Credits will be recaptured proportionately if employment decreases during the five years following the initial credit year.

Land Preservation Tax Credit

This tax credit is for taxpayers that convey land or interest in land located in Virginia to a public or private agency

eligible to hold such land or interests therein for conservation or preservation purposes. The conveyance must be in perpetuity.

The credit for 2006 is 50% and the credit for 2007 and beyond is 40% of the fair market value, as substantiated by a "qualified appraisal" prepared by a "qualified appraiser", as those terms are defined under applicable federal law and regulations governing charitable contributions. The total amount of credit that may be used per taxpayer per taxable year may not exceed \$100,000 or the tax liability, whichever is less. Any unused credit prior to 2007 may be carried forward for the next 5 taxable years. Any unused credit for 2007 and beyond may be carried forward for the next 10 years.

No more than \$100 million in credit value can be issued in calendar year 2007. The credits will be issued in the order that a complete application, along with its required documentation, is received (please see Form LPC). In addition to the previous requirements, for donations with a credit value of \$1 million or more, TAX must receive approval of the conservation value from DCR before the issuance of the credit. Once the \$100 million CAP is met, any remaining donations recorded in the current calendar year will be issued for the next available calendar year. The amount of the annual limit for each year will be increased by an amount equal to \$100 million multiplied by the percentage of the consumer price index (CPI-U) published by the U.S. Department of Commerce, for the 12 month period ending August 31 of the previous year. Any taxpayer holding a Land Preservation tax credit that originated on or after **January 1, 2002**, may transfer unused but otherwise allowable credit for use by another taxpayer on Virginia income tax returns. Transfers and pass-through allocations from donations recorded on or after 1/1/07 are subject to a fee of 2% of the donated interest, which equates to 5% of the credit amount transferred or allocated. The fee is capped at \$10,000 per taxpayer per donation. So if you are transferring or allocating credits derived from more than one donation, your fee may exceed \$10,000. The fee does not apply to transfers and allocations on donations made prior to January 1, 2007, even though the actual transfer may not occur until after January 1, 2007. This fee only impacts transfers of donations recorded after January 1, 2007.

If this credit is taken, for the next three years taxpayers cannot take a subtraction for the gain on the sale of land or easements dedicated to open-space use. A subtraction is allowed for any gain or income recognized by a taxpayer on the application of a Land Preservation tax credit against a Virginia income tax liability, to the extent the gain is included in and not otherwise subtracted from federal adjusted gross income. The transfer of the credit and its application against a tax liability shall not create gain or loss for the transferor or the transferee.

Before claiming the credit, complete and file Form LPC-1 with the Department within 90 days of the credit origination, but at least 90 days before filing an annual return. This form is used to notify the Department of a donation of land or interest in land that creates a Land Preservation credit. To transfer an unused credit to another taxpayer, the transferor should complete and file Form LPC-2 and send the appropriate fee (if applicable) at least 90 days before the transferees file their annual return. Upon receipt of Form LPC-1 or LPC-2, the Department will issue an Acknowledgment letter. To claim the credit, complete Part XIX of Schedule 500CR. For assistance contact the **Virginia Dept. of Taxation, Tax Credit Unit, P. O. Box 715, Richmond, VA 23218-0715, or**

Virginia Coal Employment and Production Incentive Tax Credit

For taxable years beginning on and after January 1, 2001, every electricity generator in the Commonwealth will be allowed a credit against their corporation income tax or modified net income tax of an electric cooperative for coal mined in Virginia. The credit is at the rate of three dollars per ton for each ton purchased and consumed by the electricity generator provided the coal was mined in Virginia. The credit is available in the year the purchased coal mined in Virginia is consumed by the electric generator. This credit is nonrefundable and any credit not usable for the taxable year in which such credit is earned may be carried over to the next five succeeding taxable years or until the full credit is utilized, whichever is sooner. In order to receive this credit, the cogenerator shall include certification by the seller that the coal was mined in Virginia. Also, a cogenerator may not claim this credit and the Coal Cogeneration Credit on the same ton of coal.

The credit may be allocated between the electricity generator and any person with an economic interest in coal, effective for purchases of coal made on or after January 1, 2006. The allocation of the credit may be provided in the contract between the parties for the sale of the coal. The parties may amend any such allocation with a written instrument prior to December 31 of the year that the coal was purchased. All contracts and written instruments are subject to audit by TAX.

Credits earned on or after January 1, 2006, which are allocated to persons with an economic interest in coal may be used against any tax imposed by the Commonwealth. If the credits earned on or after January 1, 2006, and prior to July 1, 2011, exceed the tax liability of the taxpayer, the excess may be redeemed in a manner similar to the Coalfield Employment Enhancement Tax Credit. The carryover period for this credit is extended from five years to ten years. This change in the carryover period is effective for coal purchased and consumed on or after January 1, 2001.

Coalfield Employment Enhancement And Refundable Coal Employment And Production Incentive Tax Credits

For taxable years beginning on or after January 1, 1996, but before January 1, 2015, a tax credit may be earned by individuals, estates, trusts and corporations who have an economic ownership interest in coal mined in Virginia. The credit is based on the quantity of coal or methane gas produced and employment levels. If the number of coal mining jobs for the year the credit is earned is less than in the previous year, the maximum earned credit is reduced by an employment factor. The allowable credit must be computed on Form 306, Coalfield Employment Enhancement Tax Credit, and reported on the return filed for the tax year in which the credit is earned. **Form 306** must be attached to the tax return when filed. The allowable credits may be claimed in taxable years beginning on or after January 1, 1999, and are subject to a specific redemption schedule. This credit may not be claimed for any ton of coal for which the Coal Cogeneration Credit or the Virginia Coal Employment and Production Incentive Tax Credit is claimed. For forms and additional information, contact the Department of Taxation. To claim this credit, complete Form 306 and transfer the

applicable amount to Schedule 500CR, Part XXII.
