## 2011 Instructions for Filing Schedule 500EL Electric Supplier Minimum Tax

Electric suppliers are required to pay a minimum tax rather than a corporate income tax for any taxable year their minimum tax liability is greater than their corporate income tax liability. The minimum tax is equal to 1.45% of the electric supplier's gross receipts minus the state's portion of the electric utility consumption tax billed to consumers. For years in which the minimum tax exceeds the corporate income tax, a carry forward credit is computed for use against future corporate income tax when that tax exceeds the minimum tax.
